Janet Vinciguerra

Janet Vinciguerra is the visionary Founder of **KIDS WHO CARE: Giving Parents a Foundation For Generations**. Throughout Ms. Vinciguerra's professional career on the front line with children, she experienced building something that lasts -- each child's character & confidence -- and she repeatedly witnessed that *the foundation* is mission critical.

For decades Janet has participated in building character & confidence in young children and teenagers. Today, this Architect of Building Character in Kids clearly sees how this work expands and serves our children, and our children's children, by instilling *That Wise Inner Voice* that gives us all the power to build character in the world we create.

"The work and the proven tools developed over 30 years in the classroom have finally been made available. Parents now get to use them at home, to ensure each child *That Wise Inner Voice* that guides a life of good choices and good decisions."
